Corona / COVID-19 / SARS-Cov-2

THE GOOD, THE BAD AND THE UGLY

Most Earth Citizens have by now heard and felt the accompanying stress from the dreaded CORONA-19 virus. Mass panic is the order of the day. Every Day we are bombarded with hundreds of CORONA-19 updates - FAKE and REAL information continues feeding the panicking Mob either way. Most are positive and many negative, quite frankly scared.

It is heart-warming to see that the effect from this pandemic has brought South Africans together. This is a positive signal to our future together as we assess the future together..

My message to you is that it is OK to feel these mixed emotions. Do not lose hope and if it does get too much to handle reach out to the relevant sectors for assistance. Speaking so someone professional can help build new perspective. There is no shame in feeling overwhelmed. The events we are seeing unfolding around us seem apocalyptic. The world has not seen this scale of challenge since the Second World War. This is affecting every country and in effect almost every citizen on planet earth. Just keep the silver lining in the back of your mind that everything will be OK. The human race has survived this type of outbreak before and we have cutting age technology and visionary leaders guiding us.

Ethnic stereotyping is an unfortunate side effect of this virus and we encourage you to stay calm and focused on the truth. Fake news increases panic on a daily basis. Don't spread fake news and if you are unsure of the truth of information..... rather do some research before sending panic on to your contact lists. Try to resist getting dragged into the herd and FOMO shopping trends that are trending at our stores. Let us support each other where we are able.

I ask from you to keep on planning your Events and Experiences. We ensure that we negotiate flexible cancellation policies for your trips pending the outcome of this pandemic. Allow us to put together exciting and innovative solutions for your requirements. We are feeling positive that the Corona-19 virus will be over in no time.

Experiences and Events is thinking of everyone who is affected by this virus. Everything is going to be Gucci.

Conference Ideas

Integral to your return on investment

The events and incentive industry is in for a rough ride and we need to innovate... change with the times now more important than ever.

Events and Experiences have a number of relevant solutions ready for implementation.

With **Microsoft Teams**, you can utilise one-on-one or group audio and video calls. You can share screens during conferencing, schedule meetings, and even record meetings during this time. Each Team Member has up to 1TB of storage space. This truly is a great application for remote collaboration and in these times will prove it's worth. Most Microsoft users already have the application

Many people struggle to **stay focussed** and applications like the Forest Application can really make focussing easier and fun.

Conferencing over this period is challenging, due to the restriction of movements that Government has implemented, but we are able to use your existing infrastructure with ours to host impactful meetings and events. Video conferencing is more important than ever and we have the solution for your every requirement. Our rates may even cause you to smile in a time where we all need to tighten our belts. **Audio and Visual** solutions are one of our cornerstone offers.

We have some amazing **Villas** around South Africa for those who want to isolate themselves in a setting in the Bush, Country or near the Ocean. We have negotiated many long term stay specials. We have solutions for every need.

Events and Experiences also has great suppliers for **personalised hand sanitisers** for staff desks. We also offer **posters** that may be distributed to staff and clients - these designs are editable to suit your needs. Experiences and Events can also offer **survival hampers** to your staff delivered to their address.

Offering **incentive** has never been more important for staff and client morale. Events and Experiences has a range of solutions available to ensure that your team members are well motivated and positive during this critical period. Events and Experiences is available to consult with you direct or via video call. Events and Experiences manages the entire process and ensures that you have buy in. This covers the launch, the teasers, the motivation and the actual incentive to completion. Truly full turn-key service.

As Events and Experiences is a cutting-edge, small business we are agile and can respond to your requirements fast.

Last word

EVENTS AND EXPERIENCES (PTY) LTD

Times have never been more uncertain than we are currently experiencing. Economies are slumping and CORONA-19 is a real threat to all of us. The future as we know it is in the balance. Negativity is flourishing and we all have a duty to change this pending tide. Let us continue as best we can and look forward to a bright future where we are all more mindful of what is going on around us. Take time to enjoy the blue sky, enjoy the rain drops, the smile from a stranger, the warmth of doing good for others, smell the roses and be present in the moment.

Let us all take hands and work towards a bright future. Like his excellency, Mr. Ramaphosa quoted ancient Greek storyteller Aesop:

"United we stand, divided we fall."

I look forward to collaborating with you, ensuring cutting-edge solutions for your requests.

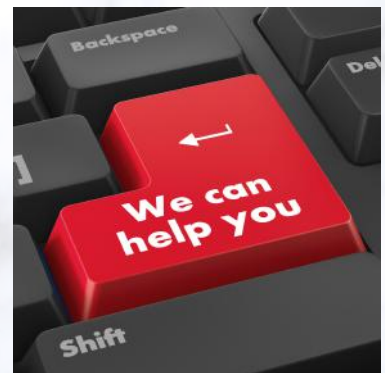

We have many solutions that may well be suited to assist your particular challenges.

We look forward to working with YOU.

Everything is going to be Gucci.

Thank you for using some of your precious time to read our first edition of The Juicy.
